Your Support

To stay focused on our mission, we are excited to announce that Desert Vets Racing is now DVR Motorsports. **NEW NAME. SAME MISSION.** Our goal is to build on the positive momentum our founders started and expand it to create a more structured environment.

Our Vision

We believe that the growth of locally oriented grassroots activities that involve a combination of technical skills, adrenaline, team effort, and business and marketing skills will ultimately provide a missing piece to the “veteran puzzle” in minimizing the mental health and substance-related struggles we see today.

Our Mission

DVR Motorsports (DVR) is determined to provide immediate team-building, vocational skills, and mental health support access through the sport of racing to US military veterans and active-duty personnel - in order to facilitate healthy transitions into civilian life.

What We Do

We are a 501(c) 3 Nonprofit. We will work closely with our current sponsor partners and develop new relationships to ensure the future long-term success of DVR Motorsports. This will also allow for new growth opportunities both inside and outside the off-road racing community.

We have an open invite to any veteran or active-duty personnel to come hang out with us,. We are committed to helping any way possible.

There are no requirements to join except a DD214 form or an active-duty CAC card.

Our Core Focus

Since its inception by our founders Mike Pascarella and Adam Carr, DVR Motorsports has put in place a mission of providing a platform focused on our US military veterans and active-duty personnel. This consists of team building and comradery, adrenaline therapy, and mental health support through motorsports racing. We want to give veterans and active-duty personnel the opportunity to try something new and be part of the DVR Motorsports family.

Where Are We

We have plans for 2023 to compete in a series of UTV off-road races to include BITD, Legacy Racing, and The Mint 400 where we can showcase our team mission and highlighting our sponsor partners. We are also looking to reach outside the off-road racing community.
